EDUCATION

HITEC UNIVERSITY TAXILA
SOFTWARE ENGINEERING
SEPTEMBER 2023 – JUNE 2027

PROFILE

Currently I am pursuing a degree in software engineering and I am passionate about designing and developing websites.

EXPERIENCE

FIVERR. & FREELANCE WORK

JANUARY 2023 – PRESENT

I have decent experience doing freelance work in website development domain and I am eager to grow as a web developer by learning modern frameworks to enhance my skill set. Doing freelance work part-time along with studies has enabled to understand the client needs and expectations from a professional software engineer.

KEY SKILLS

HTML5, CSS3, JavaScript (ES6+)

PHP, Node.js, MongoDB, PostgreSQL & MySQL

CMS → Webflow, WordPress, Wix, Squarespace

Proficient understanding of Java & C++

React, expressJS, tailwind, *bootstrap, jQuery, Laravel and learning further frameworks*

Looking forward to applying my software engineering knowledge and web development skills in a real-world setting through an internship. I aim to gain hands-on experience, contribute to projects, and grow as a developer in corporate environment.
